GLOBAL ENROLLMENT

SPECIAL THANKS

UNIVERSITY OF ARIZONA

For the fantastic job enrolling 12 participants in December (up to Dec 22), 9 in November, 6 in October and 6 in September.

They went from the 13th position in our Leader Board in September to 4th position in December! Thank you so much for your outstanding work and for helping us reach our target, we are fortunate to have you on CARSK!

ALL CARSK SITES

For their continued support and hard work. Thank you, for your enthusiasm and persistence and for all you do to make CARSK a success.

We wish you a Happy Holiday season and the most wonderful year ahead.

BARTS HEALTH NHS TRUST

The Royal London Hospital

SITE OF THE MONTH

Left to right: Dr. Kieran McCafferty (PI), Damini Jeyarajah (Renal Research Matron), Anika Anderson (Research Nurse).

BARTS HEALTH NHS TRUST has been formally activated on CARSK September 29, 2022.

The Team has been engaging with their dialysis patients who are dialysing in the morning, afternoon and evening time slots. Having face-to-face conversations with the patients has been effective for the Barts team because the patients gain a better understanding of the study.

Dr. McCafferty has recently been appointed to Director of Barts NIHR Clinical Research Facility

CONGRATULATIONS BARTS HEALTH NHS TRUST TEAM

**Dr. Kieran McCafferty,
Damini Jeyarajah, Anika Anderson and Desi Baramova.**

Dr. Kieran McCafferty

Since being appointed Honorary senior lecturer in 2015 Dr. McCafferty has led on over 50 clinical trials across Barts Health/QMUL.

Dr. McCafferty is National Chief investigator on 10 interventional clinical trials. He has led nationally on 7 NIHR portfolio adopted, landmark international interventional studies.

Dr. McCafferty has grown the renal research team at Barts Health from one staff member to currently: a Band 8 Research matron, a band 7 senior research nurse, 3 band 6 research nurses, 2 band 6 research practitioners, a band 5 data manager and a band 4 assistant.

(*Band is the level of seniority within the NHS from newly qualified nurse (band 5) to matron (8a and above)).

Dr. McCafferty has achieved this through successful business case applications to the CRN along with research income driven by research delivery both academically and commercially.

Dr. McCafferty has mentored new Principal Investigators and allied health professional research team members supporting them to take up their own studies, apply for PhD grants and develop their careers. With his support Barts Health have increased the number of PIs in the department from 3 to 13.

ENROLLED: 1723 (52%)
